

Ashish Mehta

MERN Stack Developer

Ashishmehtataj6@gmail.com | +918103701398 | Mandsaur, India | [linkedin.com](#) | [github.com](#) | Portfolio

SUMMARY

Motivated MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js and MongoDB. Skilled in JavaScript, REST APIs, JWT Authentication, CRUD operations, Git, and responsive web development. Strong problem-solving, collaboration, and communications skills with a passion for building scalable applications and continuously learning modern technologies.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap, Material UI, DaisyUI

Backend: Node.js, Express.js, MongoDB, Mongoose

Tools: Git, GitHub, Axios, Cypress, Vercel, Netlify, Render

Languages: C, C++, Java (Basic), Python (Basic)

PROJECTS

BookNest | Full-Stack MERN Bookstore, *React.js | Node.js | Express.js | MongoDB | Tailwind CSS | Axios | bcrypt.js*

- Developed a responsive MERN Bookstore application with user authentication and dynamic book listing.
- Built RESTful APIs using Express.js and MongoDB for retrieving book data and managing user authentication.
- Implemented secure login and signup using bcrypt.js, React Context API, and Local Storage for session management.
- Designed a responsive user interface using React.js, Tailwind CSS, DaisyUI, Axios and React Router.

Live : <https://book-store-five-fawn.vercel.app/> 

AI Voice Assistant, *React.js | JavaScript | Web Speech API | Google Gemini AI API | HTML | CSS*

- Built a voice-enabled AI assistant using Web Speech API for real-time speech recognition and speech synthesis.
- Integrate Google Gemini AI API to intelligent, contextual responses to user prompts.
- Implemented command-based automation system for opening websites, Wikipedia, battery status, jokes, stories etc.
- Design a React Context-based state management system to handle speaking states, prompts and AI responses.

Food Recipe Finder, *React.js, JavaScript, React Router DOM, Axios, HTML, CSS, TheMealDB REST API*

- Developed a responsive Food Recipe Finder web application using React.js that allows user to search meals and view recipes.
- Integrated TheMealDB REST API to fetch real-time meal data including image, recipe names, and cooking instructions.
- Implemented client-side routing using React Router DOM to enable navigation between home page and recipe detail pages.
- Handled asynchronous API requests using Axios and Fetch API with proper error handling.

PROFESSIONAL EXPERIENCE

Inditechfied  , *Java Programming Tutor*

09/2022 – 11/2022 | Moradabad, India

Delivered Java Programming fundamentals, covering variables, loops, functions, and arrays enhancing students' foundational skills.

Explained Object-Oriented Programming (OOP) concepts and core programming principles.

Guided students in problem-solving and coding skill development, fostering independent learning and confidence in programming.

EDUCATION

University Institute of Technology(BUIT)  , *Bachelor of Engineering*

05/2025 | Bhopal, India
